ABOUT THE BRAND

Reece Australia designs and markets attractive clothing and accessories for active lifestyles. With dynamic and versatile collections we aim to motivate you to get the best out of yourself. Whether you play just for fun or on the highest level.

Reece Australia is the proud clothing partner of international sports federations, European top teams and individual players with unique qualities. Even up to Olympic level! Beautiful partnerships arise from the shared philosophy of passion for sports and always striving for the highest achievable goals.

MISSION – What we stand for

To make you perform at your best.

VISION – What we aim for

To bring the best performance into active lifestyles.

VALUES – What we believe in

Passionate about sports

Sports and passion are inseparable. They form the heart and soul of Reece Australia. Sports and all the qualities it entails, like dedication, belief and pride. We believe in inner motivation as the key ingredient for success. We admire people who try to make a difference, who are willing to swim against the tide. In all the challenges that sports can bring, Reece Australia aims to be a supporting value. Our products support your activities and enable you to stand out and shine.

Focus on quality and design

Quality and design are the measuring sticks by which we make our decisions every day. Quality as an obvious requirement, design as a chance to make a difference. We sense a strong connection between the way you look and the way you feel. And feeling good is vital when you're active, because it gives you energy instead of taking it. Our designs aim to contribute to this energetic and confident feeling.

Performance and presence

Performance and presence: those are the two core values at which Reece Australia points its arrows. Two concepts that reinforce one another and can give you an invincible feeling. In this way what you wear can help you to achieve significant wins in life. With a versatile and fashionable sports collection, Reece Australia focuses on teams and athletes who believe in this power of presentation.

PROUD PARTNER

Reece Australia is the proud clothing partner of sport at the highest level. International sports federations, European top teams and individual players with unique qualities have committed to our brand. Our sponsorships challenge us to always and every day go for the best.

NATIONAL HOCKEY TEAM MEN, GERMANY

The players of the German team were closely involved with the design of the national shirts. Together with the designers of Reece Australia, a design was achieved that provided the team with their desired appearance. The shirt reflects the dynamics of the game, with details that tell the unique story of the team. The collar forms the beak of the famous German eagle, as a powerful symbol for unity and team spirit.

NATIONAL HOCKEY TEAM WOMEN, GERMANY

SV KAMPONG HOCKEY MEN, UTRECHT, THE NETHERLANDS

The cooperation between Reece Australia and SV Kampong goes way back. For the shirt, this means classic blue and white as a base from day one, the solid colours of SV Kampong. The prominent logo on the chest, with the name Kampong (Malay for 'a small village') and the characteristic palm tree, refers to the rich history of the club.

SV KAMPONG HOCKEY WOMEN, UTRECHT, THE NETHERLANDS

NATIONAL HOCKEY TEAM MEN, BELGIUM

"L'union fait la force", unity is strength. A telling phrase on the coat of arms of Belgium, that perfectly matches the power of team sport. The sentence formed the base for the Belgian shirt design, which among other things is characterized by subtle mesh surfaces and an optimal fit.

NATIONAL HOCKEY TEAM WOMEN, BELGIUM

HC ORANJE-ROOD MEN, EINDHOVEN, THE NETHERLANDS

HOCKEYCLUB
ORANJE-ROOD

HC Oranje-Rood, which originated in 2016 from the merger of MHC Oranje Zwart and EMHC, chose a new shirt that fits perfectly with the new name: with orange and red surfaces divided over the kit. The old shirts of both clubs are, moreover, collected for hockey players in developing countries and donated to charity.

SPECIAL DESIGN:

"THE **POWER** OF **PRESENTATION**"

Reece believes in the power of presentation. A team that enters the field in perfect team clothing with a strong club appearance, is already leading 1-0. Reece believes that team clothing can make a difference. And that's why we make Special Design.

Special Design is wanting that little bit more. A shirt that exactly reflects your team identity. A shirt that gives a huge boost to the team spirit. With Special Design from Reece Australia, you create a kit that no one else has. Something special. A kit that tells who you are as a club. Your heritage, your tradition.

© WSP/Koen Suyk

In collaboration with the designers of Reece Australia you design a shirt, shorts/skort and socks with a unique appearance. You get the high quality and perfect fit that we are recognised for, combined with a design that perfectly fits the character of your team.

A design in one colour, in different colours, with a certain collar or cuffs or an integrated club logo, anything is possible. Even the socks can be produced in the clubs colours, with a knitted club logo. This perfectly represents the impressive appearance of Special Design.

New: Special Design is now offered from 15 pieces!

Extra: hooded sweats

Special design hooded sweats complete the picture and give teams a uniform appearance even before and after the match. The hooded sweats are made of the softest materials for optimum comfort.

Extra: hockey balls

Reece Australia can even develop hockey balls with a club look-and-feel. The club logo can be printed on on the ball (2.5 x 2.5 cm). On the other side the Reece Australia logo is printed.

The collection of hockey sticks from Reece is composed in such a way that young and old, professional and amateur can always choose a stick that exactly matches the personal wishes. Every stick from Reece has its own material mix that results in a specific stiffness and the associated properties. In addition, the curvature, the balance point and the length of the stick are important. Differences in this are in line with various playing styles and therefore with personal preferences.

MATERIAL

Most of our junior sticks consist of a combination of wood and fiberglass. While most senior sticks are made of synthetic material, combinations of carbon, kevlar, aramid and fiberglass. The ratio between these materials is decisive for the stiffness, the weight and feel of the stick. The exact composition can be found on each stick and in the product information text.

- » carbon: for extra stiffness and strength
- » aramid/kevlar: for vibration absorbing and impact reduction
- » fiberglass: for durability and strength
- » wood: for an optimal ball feeling

The percentage of carbon in a stick is an important indicator of the stiffness. The stiffer the hockey stick, the lower the energy loss in the bend of the stick. For this reason, players often choose sticks with a high carbon content when they're playing with strength and power. A less stiff stick enhances ball control. Ball control is important for the development of technique.

BOW / CURVATURE

Also, the curvature of a hockey stick is a very key feature. The curvature of the stick is referred to in millimetres and varies between 22 mm and 25 mm (with Reece). The greater the curvature, the more technical the game of the player often is. Playing with a strong curvature therefore requires some practice.

The bow indicates at what point the curvature begins in the stick. This can vary from a regular, medium to late bow.

REGULAR BOW

- » curvature of 22 mm
- » bow in the middle of the stick
- » standard curve for all-round use

MEDIUM BOW

- » curvature of 24,7 mm
- » bow in the middle of the stick
- » optimal balance between control and easily hitting the ball
- » strong curvature for technical players

LATE BOW

- » curvature of 24,7 mm
- » bow at the bottom of the stick
- » late bow makes it easier to push
- » strong curvature for technical players

LENGTH

Hockey sticks are available from size 24" up to size 37,5". Especially for children it is important to purchase the right size stick. Too short a stick decreases the impact force and has a negative influence on the body posture. A stick that is too long will cause difficulties with ball control and develops the wrong technique. The table gives a good indication of the right stick length at each height. But make sure you always get good advise with this!

QUALITY ADDITIONS

Besides the excellent properties of the core Reece sticks, some of our hockey sticks are equipped with various high quality additives.

NANO TUBE TECHNOLOGY

Sticks with this technology are made of hyper carbon fibre for even more power and feel. Hyper carbon provides high impact reduction and captures hard balls easily.

IDS

The IDS abbreviation stands for Integrated Damping System. The cap of the grip of the stick reduces vibration. This reduces the chance of arm injuries and allows for a smooth passage of the ball.

ULTRA LIGHT WEIGHT

With ultra light weight sticks, dribbling uses less force. In combination with a high carbon content, this delivers a light weight stick that allows the player to hit the ball hard.

XL-GRIP

Because many players have indicated that they find a longer grip more pleasant when playing, many sticks of Reece have an extra long grip.

Mats Grambusch

Established player in the German national team and player of Rot-Weiss Köln.

Mats was named one of the world's five best players of 2017.

RX-130 SKILL HYPER CARBON HOCKEY STICK

Material: synthetic, consists of 90% carbon and 10% kevlar

SIZES: 36,5" - 37,5"

SPECIFICATIONS

- » high quality lightweight senior hockey stick
- » extra long grip with added cork for cushioning
- » hyper carbon for even more power and feel
- » added titanium for extra stiffness
- » late bend at the bottom of the stick (24.7 mm) makes it easier to push
- » ideal for technical players
- » anti-vibration end cap reduces the likelihood of arm injuries

RX-130 POWER HYPER CARBON HOCKEY STICK

Material: synthetic, consists of 90% carbon and 10% kevlar

SIZES: 36,5" - 37,5"

SPECIFICATIONS

- » high quality lightweight senior hockey stick
- » extra long grip
- » hyper carbon for even more power and feel
- » added titanium increases the stiffness of the stick
- » late bend at the bottom of the stick (24.7 mm) makes it easier to push
- » ideal for technical players
- » anti-vibration end cap reduces the likelihood of arm injuries

Jelle Galema

Plays at the top club HC Oranje-Rood since 2009, they won the national championships in 2016. Jelle is also part of the Dutch national team.

RX-120 SKILL HYPER CARBON HOCKEY STICK

Material: synthetic, consists of 80% carbon, 10% kevlar and 10% fiberglass

SIZES: 36,5" - 37,5"

SPECIFICATIONS

- » high quality lightweight senior hockey stick
- » extra long grip with added cork for cushioning
- » hyper carbon for even more power and feel
- » added titanium increases the stiffness of the stick
- » medium bow for optimal balance between control and power
- » anti-vibration end cap reduces the likelihood of arm injuries

RX-120 POWER HYPER CARBON HOCKEY STICK

Material: synthetic, consists of 80% carbon, 10% kevlar and 10% fiberglass

SIZES: 36,5" - 37,5"

SPECIFICATIONS

- » high quality lightweight senior hockey stick
- » extra long grip
- » hyper carbon for even more power and feel
- » added titanium increases the stiffness of the stick
- » medium bow for optimal balance between control and power
- » anti-vibration end cap reduces the likelihood of arm injuries

Sian Keil

Striker for HC Den Bosch, became the national champion of the Netherlands last season. Also won the EHCC in 2017.

RX-110 SKILL HYPER CARBON HOCKEY STICK

Material: synthetic, consists of 70% carbon, 10% kevlar and 20% fiberglass

SIZES: 36,5" - 37,5"

SPECIFICATIONS

- » high quality lightweight senior hockey stick
- » extra long grip with added cork for cushioning
- » hyper carbon for even more power and feel
- » added titanium increases the stiffness of the stick
- » medium bow for optimal balance between control and power
- » anti-vibration end cap reduces the likelihood of arm injuries

RX-110 POWER HYPER CARBON HOCKEY STICK

Material: synthetic, consists of 70% carbon, 10% kevlar and 20% fiberglass

SIZES: 36,5" - 37,5"

SPECIFICATIONS

- » high quality lightweight senior hockey stick
- » extra long grip
- » hyper carbon for even more power and feel
- » added titanium increases the stiffness of the stick
- » medium bow for optimal balance between control and power
- » anti-vibration end cap reduces the likelihood of arm injuries

RX-109 // COMPOSITE SENIOR STICK

Material: synthetic, consists of 50% carbon, 40% fiberglass and 10% aramid

SIZES: 36,5"

SPECIFICATIONS

- » lightweight senior hockey stick
- » extra long grip
- » hyper carbon for even more power and feel
- » medium bow for optimal balance between control and power
- » ideal for technical players
- » fiberglass for durability and strength
- » added aramid for vibration damping and impact reduction
- » anti-vibration end cap reduces the likelihood of arm injuries

Glenn Schuurman

Player for Bloemendaal and the National team, already has an impressive honors list behind his name. His most recent prize: in 2017 he became European Champion with the Dutch team.

RX-108 // COMPOSITE SENIOR STICK

Material: synthetic, consists of 50% fiberglass, 40% carbon and 10% aramid

SIZE: 36,5"

SPECIFICATIONS

- » lightweight senior hockey stick
- » extra long grip
- » hyper carbon for even more power and feel
- » medium bow for optimal balance between control and power
- » ideal for technical players
- » fiberglass for durability and strength
- » added aramid for vibration damping and impact reduction
- » anti-vibration end cap reduces the likelihood of arm injuries

RX-105 // COMPOSITE SENIOR STICK

Material: synthetic, consists of 70% fiberglass, 20% carbon and 10% aramid

SIZE: 36,5"

SPECIFICATIONS

- » allround senior hockey stick
- » regular bow with 22 mm curvature
- » 70% fiberglass for durability and strength
- » optimal ball control
- » hyper carbon for even more power and feel
- » standard bend for allround use
- » anti-vibration end cap reduces the likelihood of arm injuries

RX-95 // COMPOSITE SENIOR STICK

Material: synthetic, consists of 75% fiberglass, 15% carbon and 10% aramid

ON PHOTOGRAPHIC REPRODUCTION AND PRINT SOME COLOUR CHANGES MAY OCCUR BETWEEN PICTURES AND ORIGINAL PRODUCTS. WE RESERVE THE RIGHT TO MAKE PRODUCT/TECHNICAL CHANGES (IN DESIGN, COLOUR, FUNCTION AND MATERIAL), WHICH WE FEEL, WILL MAKE FOR IMPROVEMENT OF THE PRODUCT. WE WILL NOT ACCEPT ANY RESPONSIBILITY FOR PRINTING ERRORS IN THE CATALOGUE!

GARMENT CARE: REECE AUSTRALIA PRODUCTS ARE MADE TO THE HIGHEST STANDARDS AND ARE SUBJECT TO STRICT QUALITY CONTROL PROCEDURES. GARMENTS HOWEVER CAN DISCOLOUR DUE TO SUBSTANCES SUCH AS LINIMENT OR OIL, AND OF COURSE PERSPIRATION, ALL OF WHICH MAY NOT BE FULLY REMOVABLE BY WASHING. THE EXTENT OF DISCOLOURATION CAN BE GREATLY REDUCED BY FOLLOWING A FEW SIMPLE PROCEDURES. SOAKING AND/OR WASHING OF THE GARMENT IN WATER AND DETERGENT AS SOON AS POSSIBLE AFTER USE CAN REDUCE DISCOLOURATION, USING AT LEAST THE SAME VOLUME OF WATER AS THE GARMENT BEING TREATED. ALWAYS FOLLOW DETERGENT MANUFACTURERS INSTRUCTIONS, ESPECIALLY THOSE INTENDED TO TACKLE HEAVY STAINS AND AVOID PRODUCTS CONTAINING BLEACH. REECE AUSTRALIA CANNOT ACCEPT ANY LIABILITY FOR DISCOLOURATION OR DAMAGE TO GARMENTS RESULTING FROM STAINING CAUSED BY ELEMENTS FOREIGN TO THE MATERIALS USED IN MANUFACTURE.

REECE AUSTRALIA RESERVES THE RIGHT TO MODIFY PRODUCT SPECIFICATIONS AND PRICES AT ANY GIVEN TIME.

MATERIALS

Comfortable, warm, light-weight, fast drying and easy to maintain. The advanced microfibres give optimal body fluid transport and keeps you comfortable in many different conditions.

The use of microfiber increases the comfort of the fit and gives the material a soft feeling. Microfiber materials have a high quality look and feel.

High technical quality. By combining different yarns the garments are very comfortable and suitable for sport and leisure use. Suitable for training and intensive use, colour and shape retaining. Suitable for printing.

TTS is a highly functional and durable material. Extremely suitable for strenuous exercise. The material is easy to wash which simplifies maintenance.

High quality, very comfortable. Light weight. Water- and windproof, pu-coated, with taped seams, and breathable. The advanced micro-fiber yarns give optimal transportation of body fluid and keep you comfortable in various conditions.

Sportpolyester has a thermal effect and is easy to wash, which simplifies maintenance. It protects against cold wind and is a great combination of a functional and durable product.

Polypropylene is a thermal, ultra light fibre. It is moisture resistant and moisture transportable. Polypropylene is 100% real colour, unshrinkable and recyclable. It gives perfect comfort to your feet and avoids skin irritation. Polypropylene is specifically used for high-quality hockey socks.

High quality material, used in our thermal baselayer. Stretchable, forms to the contours of the body and feels like a second skin. The material is light weight, dries quickly and is isolating, by retaining the body temperature.
